Swine Flu Virus and Fear-Inducing Media Coverage

As a healer and abundance teacher, I have become very conscious of the energy of planetary fear around money and health. When the swine flu fever/virus broke out in Mexico - as I watched the images of people in Mexico City wearing gas masks, I could almost feel the fear energy around the swine flu being amplified and multiplied globally. It annoyed and irritated me so much that I created a YouTube video presentation on healing for the swine flu virus the very next day.

I also have been observing the chaos in financial markets as well and feel that the fear-oriented media attention on the financial markets is focusing attention and mental energy on chaos and scarcity consciousness which makes the situation much worse than it could have been. When I recorded the swine flu video for YouTube, I included transmissions to clear and heal a lot of fear-oriented and fear-inducing media influences as well so it is a good video to watch if you have gotten sucked into the planetary financial instability, fear and chaos.

We each are very powerful co-creators of our own reality and now more than ever we need to be impeccable about where and what we place our time, energy, focus upon. If you make the mastery choice to watch the news, please pray afterwards and ask the Creator to clear, heal and release you from any less-than-love energies, influences or technologies that you may have picked up from watching the news.

Spiritual Healing and Enlightenment Slide Shows

After contemplating the impact of TV coverage of the swine flu virus, it also highlighted for me the importance of technology in our society. Technology is neutral in many ways so it can be a force for good as well as not so good. One reason I began placing a lot of videos on YouTube a year ago was to tap into the power of technology to promote healing and spiritual growth. In my ongoing quest to find ways to use technology, I created two slideshows on the home pages for the www.HealingHolograms.com and www.BillAustinArt.com web sites.

On the Healing Holograms site, I created 24 images for healing. It begins out with an image for releasing stress, then seven images for clearing and balancing each of the seven major chakras, then an image for healing and clearing the meridians, etc. It also includes an image for clearing fear and several money healing images as well since I feel this is such an important issue to help people with on the planet now. The slide show lasts 3-4 minutes and it is a great, simple and easy way to reset your energy throughout the day.

On the BillAustinArt site, I created a slide show with 18 enlightenment images on it for spiritual attributes like Abundance, Beauty, Clarity, Wisdom, Emotional Mastery, Open Heart/Mind, Living with Passion, Carpe Diem, etc. I also included an image for "I Believe in Miracles."

Each time you look at each of these slide shows you will upgrade your consciousness. I encourage you to visit the sites to look at the images daily for about three to four weeks to assimilate and absorb all of the coding. Each time you look at them, however, you will receive a healing depending on what you need in that given moment of time.

YouTube Videos

I added four videos this month to my major YouTube site for:

1. Clearing and Healing the Swine Flu Virus
2. Angelic Healing Transmissions for Animals
3. BillAustinArt.com Slide Show
4. HealingHolograms.com Slide Show

The swine flu video has a lot of energies around clearing out fear from media and the pet healing transmission for animals felt very powerful when it came in. I got the sense that the angels are really trying to use this video to help clear animals from all the less-than-love energies they take on from humanity. If you have a pet, I strongly encourage you to get them to be in the same room as you play this video. Unfortunately, the two slide show videos did not come out as clear as I hoped for so I encourage you to look at them on the actual sites.
